CLUB LUMIERE

DESIGNER: RLD

× **design statement** Club Lumiere is part of the Lumiere Residences development. It has Sydney city's only private fifty-metre swimming pool, adjoining a twenty-five-metre pool and jacuzzi with expansive fitness centre and steam room. Redefining Sydney's historic mid-town, the Lumiere development is situated between the domes of Queen Victoria Building and the vibrant cinema and shopping district of George Street. Rising commandingly from behind the spires of St Andrews cathedral, Lumiere consists of 456 luxury apartments and penthouses over fifty-six levels, serviced by Club Lumiere on the thirteenth and fourteenth level. Looking up from the grand, three-storey glass atrium lobby, the glass-bottomed pool is suspended over an elegant water feature. The interior design inspires retreat to Club Lumiere to refresh, invigorate and relax.

jury comment A limited yet strong use of colour has been achieved through a combination of materials, elements and textures. The dominant blue and charcoal of the vertical surfaces have been softened by billowing curtains, and the colours of each interior element, including the swimming pool itself, are in perfect balance. Clever lighting design has rendered the interior surfaces lustrous, while the curtains and lifebuoy add a touch of whimsy.
