Add drama with lighting

"Create an eye-catching focal point in a hallway or over the kitchen island bench with one of this season's dramatic, sculptural ceiling lights. I love the minimalist lights I saw at last year's Milan Furniture Fair, which would work equally well in decorative spaces or those with an architectural edge. When it comes to finishes, neutrals provide a timeless look; think white, black, grey and metals such as bronze and copper."

Andrea D'Cruz, interior designer, D'Cruz Design Group; dcruz.net.au.

'If a statement light is out of your budget, group pendants together.' Ashley Pratt, H&G senior stylist
