SMART SPACES

AT THE HANDS of interior designer Andrea D'Cruz and the design team at Fanuli, this Sky Penthouse (163m^2) takes urban living to new heights – the result is as glamorous as it is practical. Located in a luxury new development in Chippendale, NSW, the building, which was designed by Jean Nouvel in collaboration with PTW Architects, is part of One Central Park, a mixed-use urban village. Floating above the city's skyline, the apartment features abundant natural light, expansive views and free-flowing spaces, grounded by natural materials, including marble, leather, stone, timber and glass. *dcruz.net.au; fanuli.com.au*

'Frankie' sofa from Fanuli.

'Festive' four-branched candelabras by Philippi.

INSIDER INFO

Carefully selected furniture from Fanuli creates distinct, **balanced zones** that separate living, dining and kitchen areas.

The space offers **unobstructed views** of the cityscape through walls of **floor-to-ceiling glazing** that bring the beauty of the **outdoors in.**

Cole & Sons 'Woods' wallpaper from Radford Furnishings.

Wallpaper creates a cosy haven in one of the **bedrooms**, an intimate and **cossetting** contrast to the more public living spaces.
