the best of TOKYO DESIGNERS WEEK

DESIGNER Andrea D'Cruz of D'Cruz Design Group: "This bathroom has a contemporary aesthetic with an infusion of traditional Japanese decorative elements."

We used tactile, natural surfaces such as honed granite and unfilled travertine in the design. We even added custom-carved solid travertine basins, which were chosen by the client. The bath is positioned as the central focus of the room and the intentional use of black was to create an interesting silhouette effect."

What luxury item did you choose for this bathroom regardless of budget? "The bath."

Chiselled looks

A nod to Japanese bathing traditions in granite and travertine.
